The screenshot shows the AWS Glue console interface. On the left, a list of data catalogs is visible. The main area displays a SQL query in a text editor. Below the editor, there are buttons for 'Run', 'Save', 'Schedule', and 'Clear'. The 'Query results' tab is active, showing 'Query 959' which has completed successfully. The execution time is 00 m 19 s. Below the query details, the 'Rows returned' section shows 2 rows of data.
